ABOUT ME

While continuing my education in Computer Programming, I attach great importance to improving myself in the field of software. I am eager to learn new technologies, responsible, and solution-oriented. By working on various projects, I aim to strengthen my technical knowledge and gain practical experience.

EDUCATION

High School

Kzltepe Anadolu High School 2018 - 2022

University

zmir University of Economics – Computer Programming 2024 - Present

Anadolu University – Agricultural Technology 2024 - Present

TECHNICAL SKILLS

Programming Languages: Experience in application development using C#, Java, JavaScript, PHP and basic level Python

Database Technologies: Creating databases, establishing table relationships and writing SQL queries using Microsoft SQL Server (MSSQL)

Mobile Application Development: Designing modern and user-focused mobile interfaces using React Native

Web Development: Building compatible and dynamic web interfaces using HTML and CSS technologies

Development Environments and Tools: Experience working with Visual Studio, IntelliJ IDEA, SQL Server Management Studio (SSMS) and Microsoft Excel

CERTIFICATES

freeCodeCamp
Relational Database
(2025)

Ministry of Agriculture and Forestry –
Plant Pests Control
(2025)
